FULL SPECTRUM SKIN ENHANCING PROPERTIES FOR OPTIMAL SKIN HEALTH SUPPORT

Vitamin E is a well-established multifunctional cosmetic ingredient. It is an antioxidant with healing and reparative properties that can help prevent skin aging. Recent studies, however, have shown that tocotrienols, a more potent form of vitamin E, exhibited superior antioxidation activity compared to the common form of vitamin E, alpha tocopherol.

TOCOTRIENOLS

Chemical structure of tocotrienols

Tocotrienols are 70 times more readily absorbed than a-tocopherol by cells

DIRECTION TO USE

Pour few drop in palm on face or body

Massage into skin using a circle motion

Apply twice a day

Suitable for all skin

PRECAUTION

- * For external use only.
- * Keep out of reach from children

STORAGE CONDITION

- * Avoid direct sunlight.
- * Store in a cool and dry place

SKIN REPAIR AND REJUVENATION

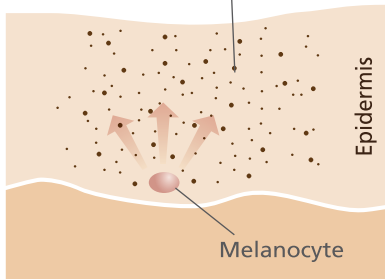

Tocotrienol is two times more effective than a-tocopherol in promoting skin repair

SKIN DEPIGMENTATION

Uneven skin tone is a highly visible sign of aging therefore there is a strong demand for depigmentation active ingredients in anti-aging skin care products. Melanin reduction 55%.

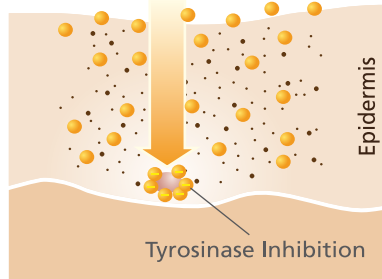

Hyperpigmentation

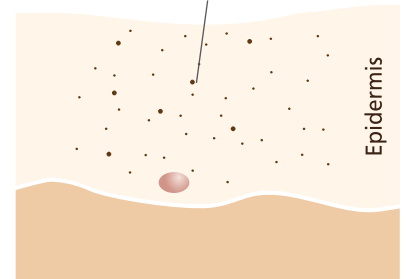

Before

Tocotrienols penetrates deep within skin to reduce melanocyte activity

Action

Pigmentation reduced
Skin whitens

After

Melanin reduction 55%

ANTIOXIDANT

Tocotrienols have 40 to 60 times higher antioxidant properties than a-tocopherol in cell and can protect the skin from damage caused by the sun's UV rays. It reduces free radical production in the skin by 76% after exposure to harmful UVA and UVB rays. Oxidative stress can cause DNA damage in fibroblasts, ultimately reducing their ability to produce collagen, tocotrienol helps to avoid DNA damage.

ANTI-INFLAMMATION

The skin becomes chronically inflamed as it ages. Therefore there is a need for skincare products with mild anti-inflammatory properties suitable for everyday use.

Tocotrienols are mild anti-inflammatory

Tocotrienols are 40-60 times more potent than a-tocopherol at scavenging free radicals

SKIN BENEFITS

- Antioxidant
- Anti-inflammation
- Anti-aging
- Sun protection
- Collagen production
- Depigmentation
- Skin repair
